LANGUAGE

- English
- Spanish (beginner)

SKILLS

- PYTHON
- Data Analysis
- Statistical Modeling
- Predictive Analytics
- Problem Solving
- Data Visualization
- Pandas
- Numpy

EXPERIENCE

Python-development

XPACE TECHNOLOGIES PVT LTD

2024 (4 week)

I completed a 4-week internship at XPACE Technologies Pvt Ltd in 2024. I developed an inventory management system, built a Python dashboard, created a teacher-student portal with database integration, and analyzed Facebook API data using pandas.

Data Scientist

SMIT Main Campus

2023 - Current

I've been actively learning data science since the end of 2023, continuously building projects and honing my skills. My experience includes working with Python, pandas, machine learning, and data analysis, along with real-world projects like inventory management, dashboards, and API data analysis. I'm passionate about turning data into actionable insights and continuously expanding my expertise in this field.

EDUCATION

Dawood university of Eng and Tecnology

Bachelor of Computer Science

2022-2026

F.g inter Boys College Karachi Cantt

Pre-Engineering

2020-2022
